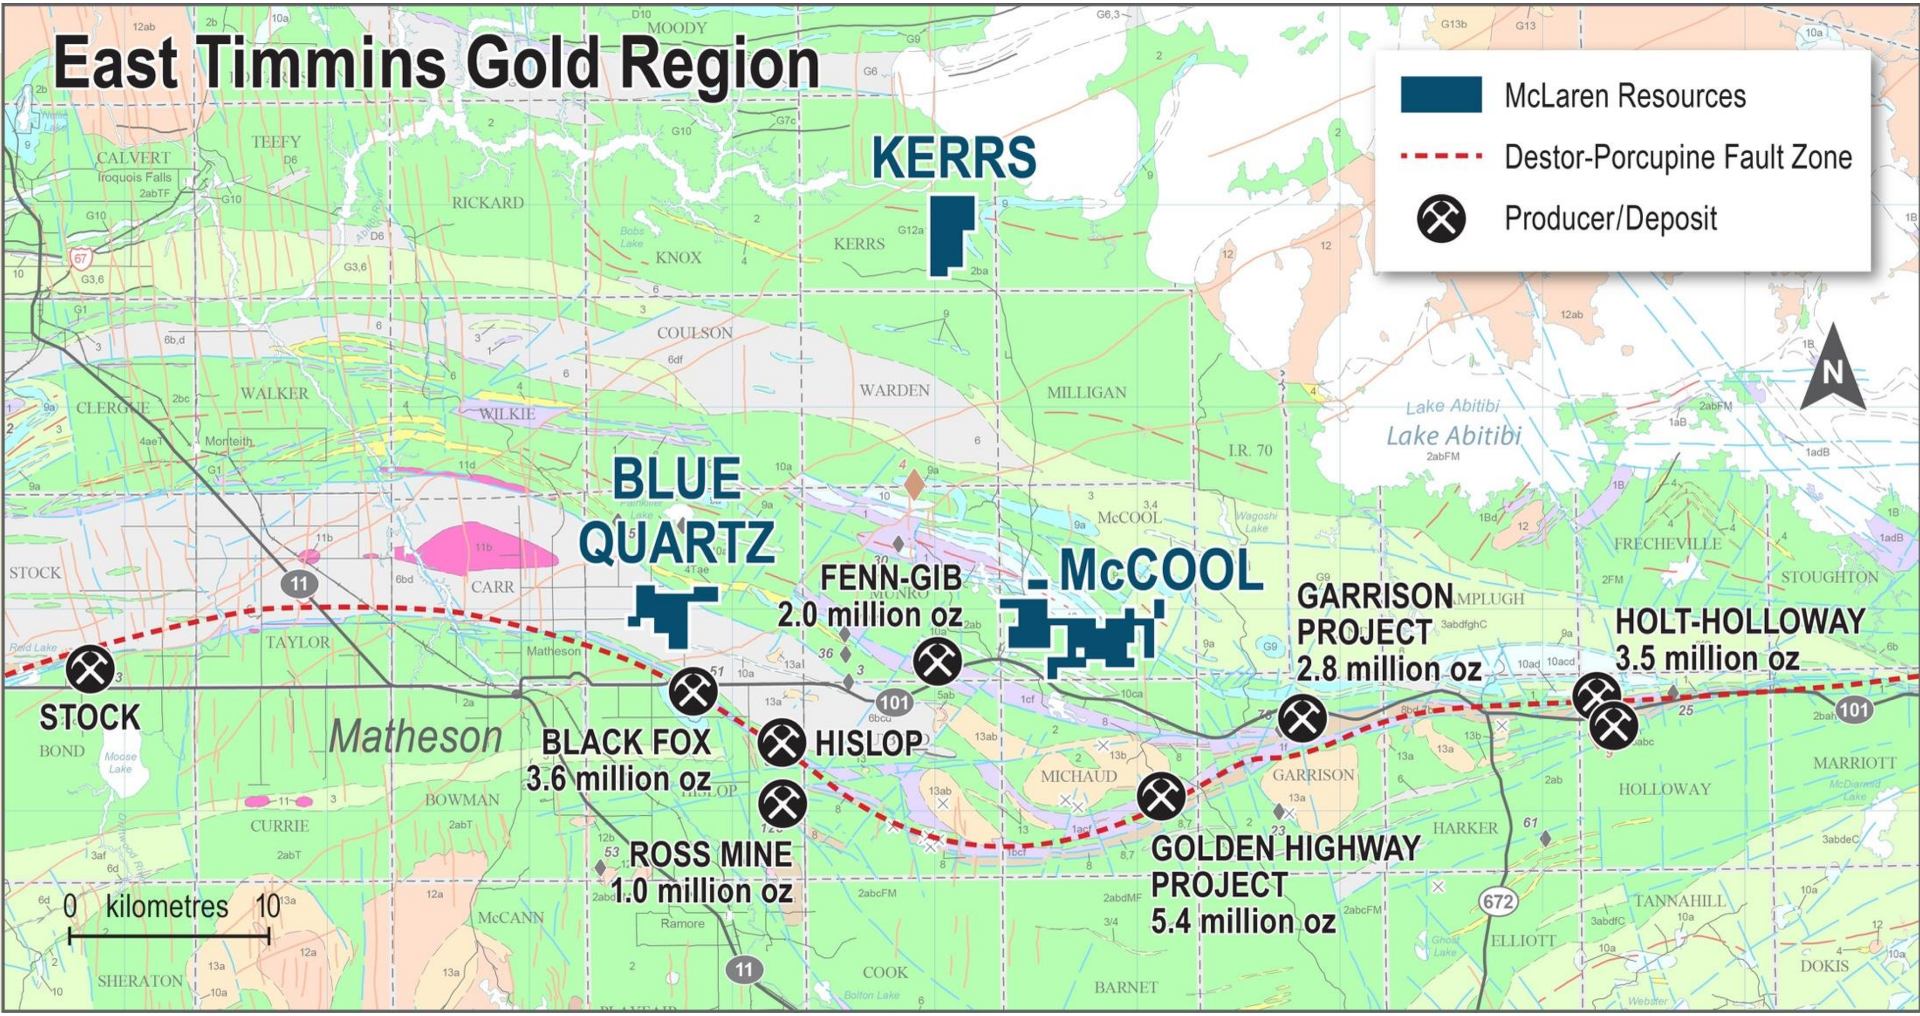
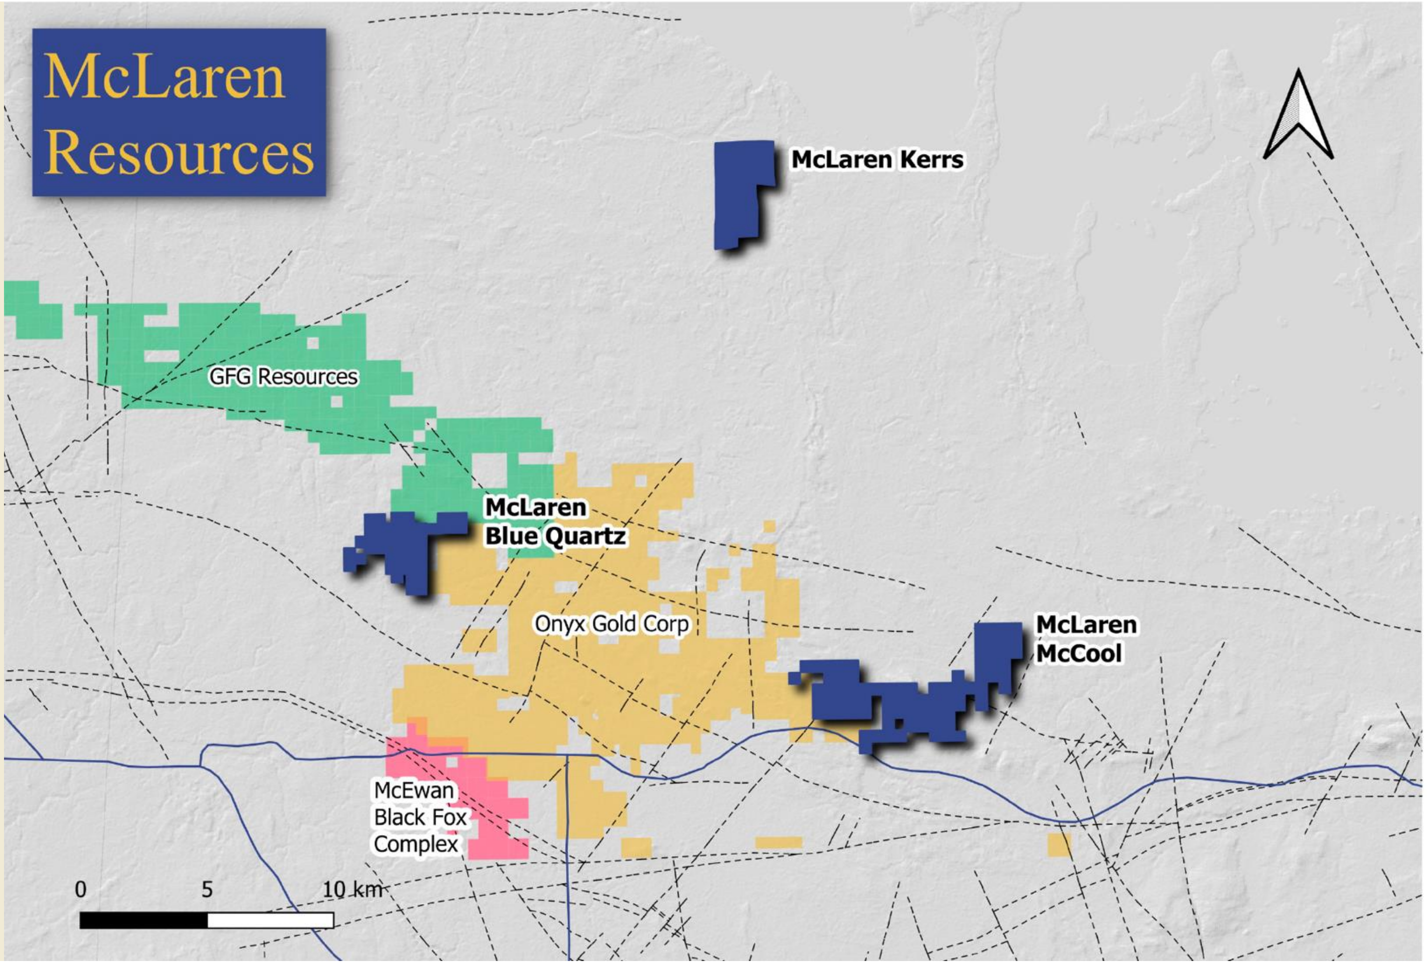
McCool, Kerrs and Blue Quartz Properties

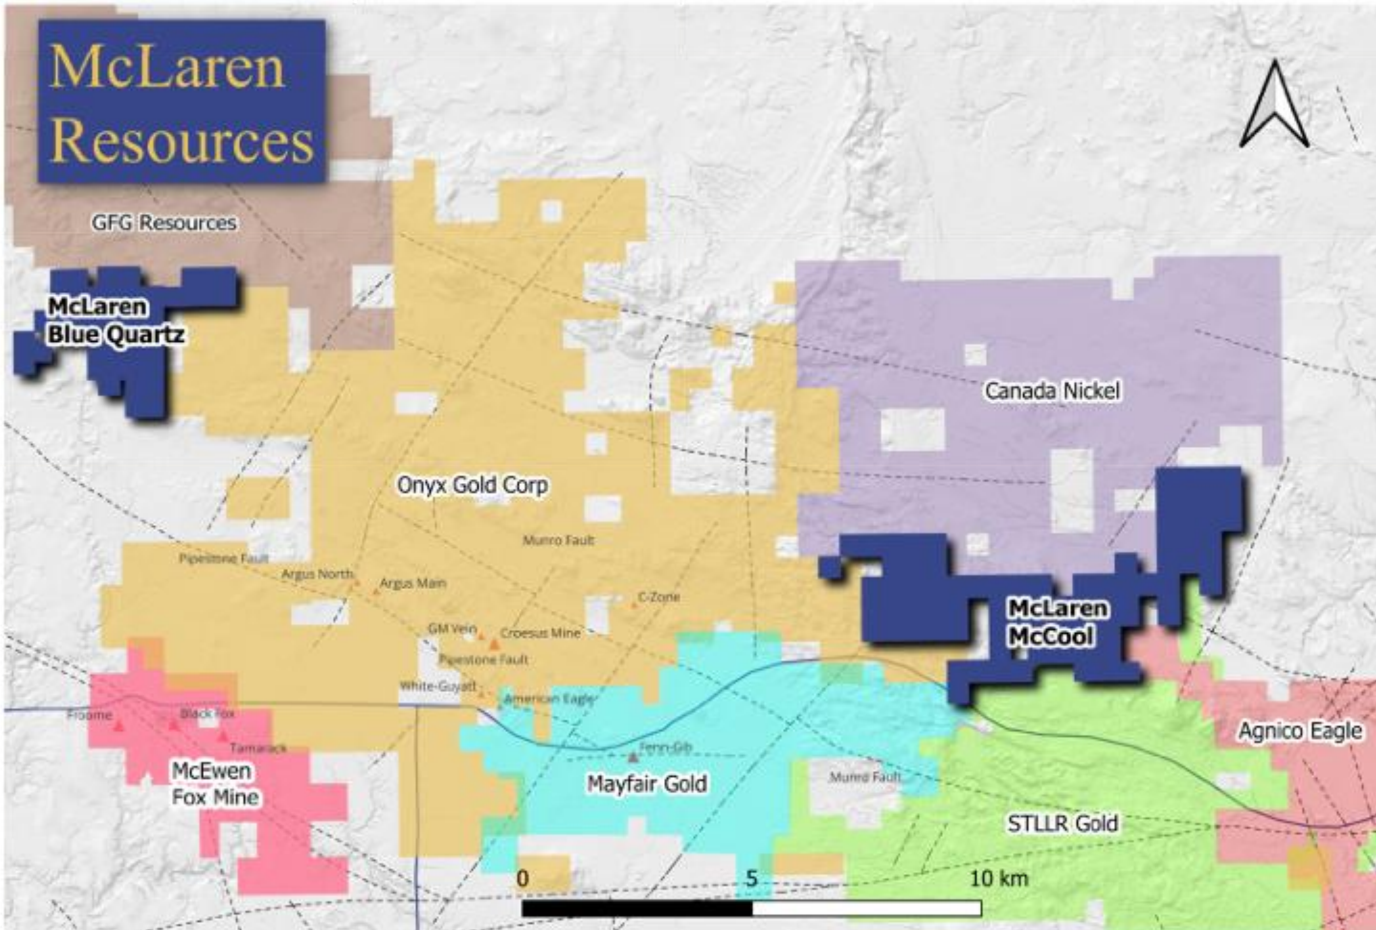


- Numerous significant gold deposits are situated along the Destor-Porcupine Fault Zone

Exploration Success at Blue Quartz Neighbours

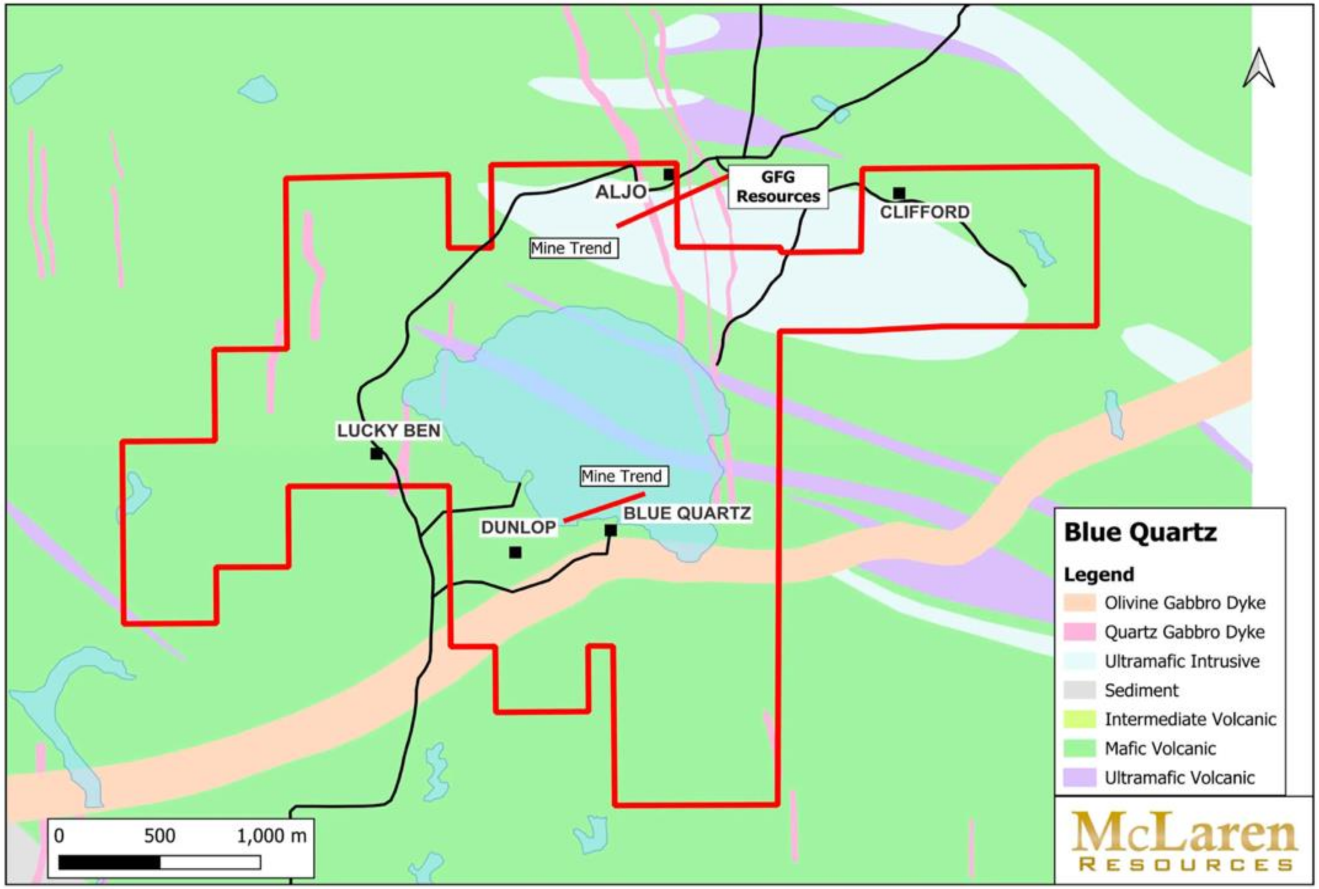
- Located on favourable geology for gold discovery
- Near Destor Porcupine Fault regional geological structure associated with significant Timmins gold deposits
- Blue Quartz property 100% owned





McLaren Resources

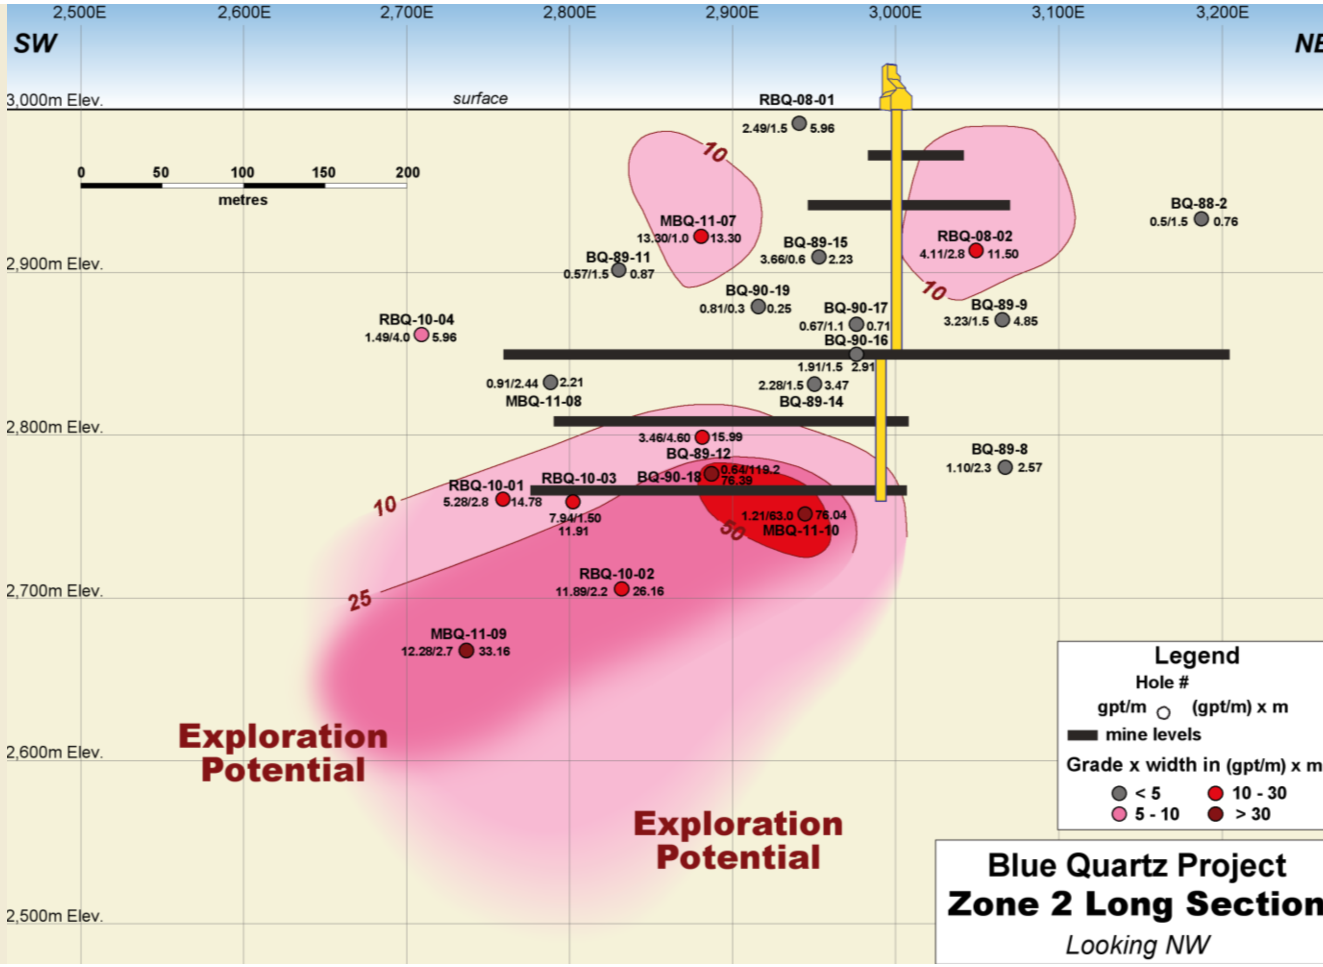
- **Properties neighbour mines, development projects and exploration projects**



Two historical gold mines on the property
The Blue Quartz Mine and the Aljo Mine

Blue Quartz - Potential for Discovery

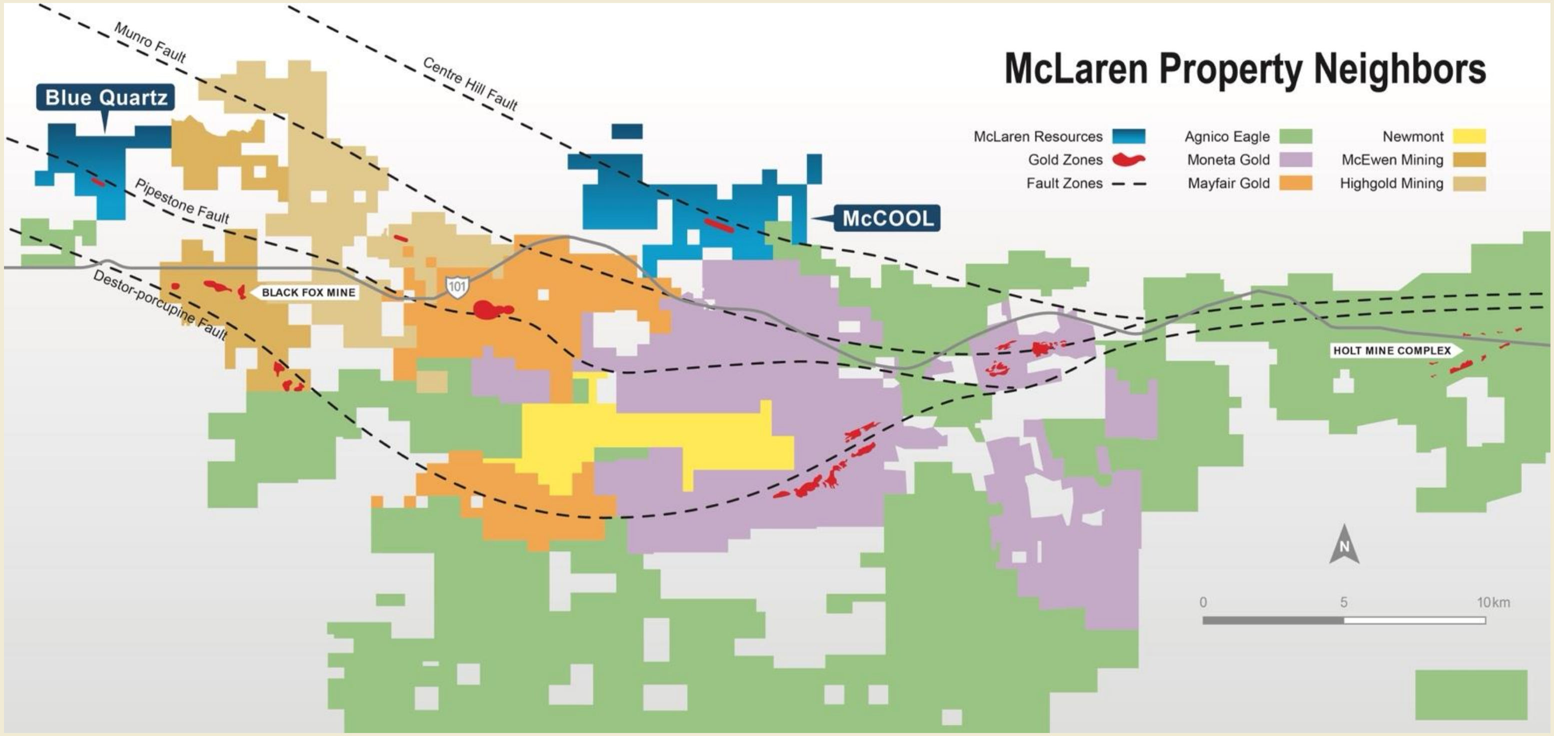
- Drilling has expanded the gold mineralization to depth and along strike
- Potential to further expand gold mineralization
- Historical high-grade gold production



McLaren Resources

Good Neighbors

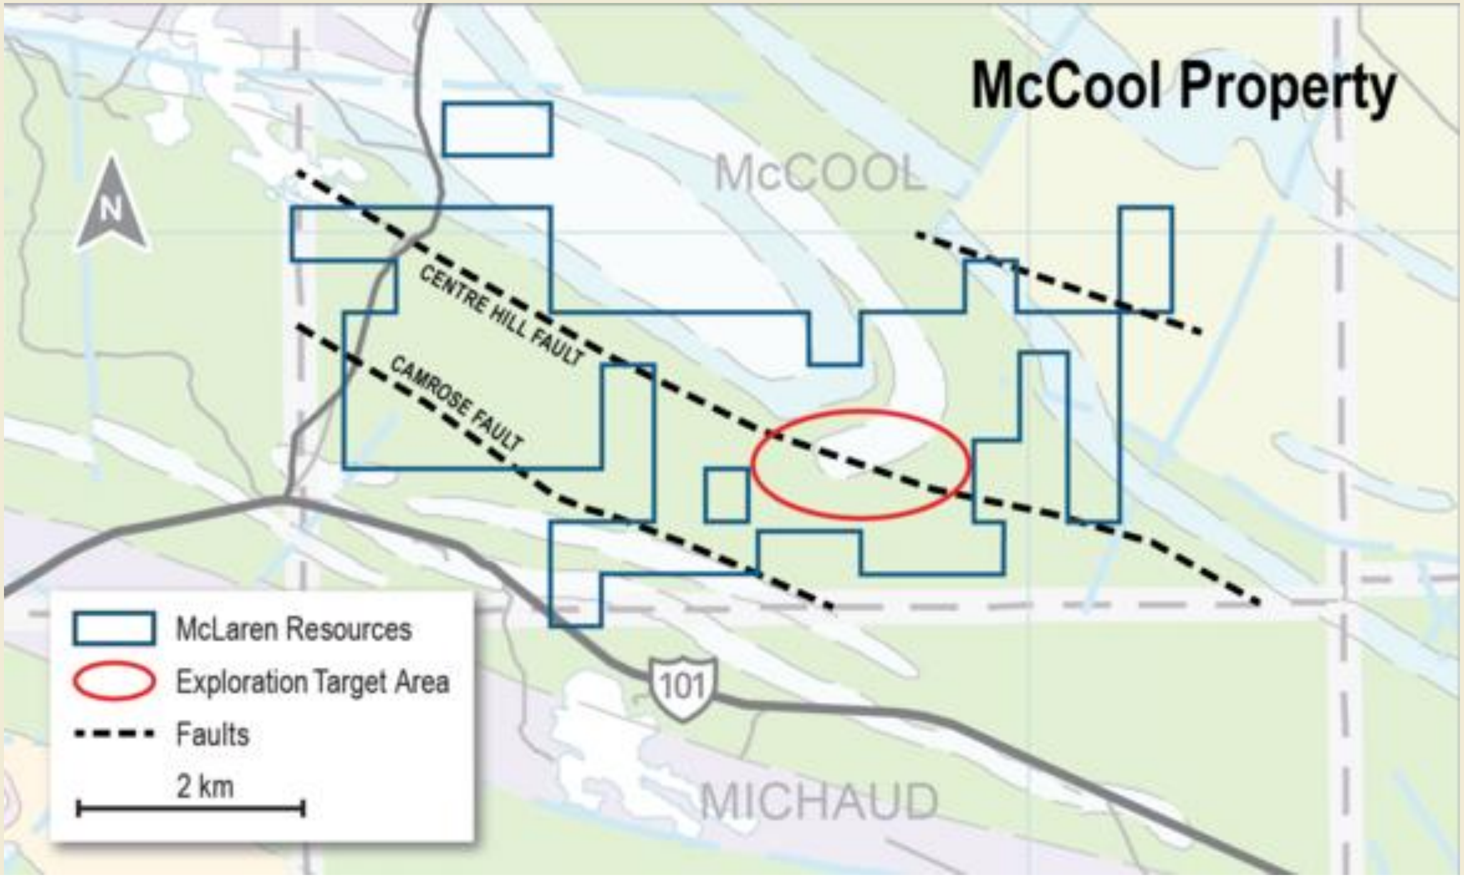
- **STLLR Gold** (formerly Moneta) has successfully expandied the Tower Project gold resource next to the McCool property
- **Mayfair Gold** Positive Prefeasibility Study on the 4.3 million oz Fenn Gib gold deposit which neighbours the south-west side of the McCool property
- **Agnico Eagle** neighbours south-east corner of McCool property.



McLaren RESOURCES

- **McEwen Mining** expanding gold zones and mining operations at the Fox Mine property.
- **Agnico Eagle's** Holt Mine Complex is 20 km to the east of the McCool property

McCool Property – Good Exploration Potential



- **1770-ha** property – 100% interest – Gold-bearing structures established on property
